

IF I TOLD YOU THAT I LOVED YOU

If I told you that I loved you - Would you think I was out of touch
And if I said that I would die for you - Would you think that that's too much
And if I told you you were beautiful - And you were my hearts delight
Girl I know that you don't love me right now - But someday you might -----

Tryin to shake this feeling - coming from inside
Wondering if you love me - trying to decide
Take to heart that what I say is 3 words to the wise
And I know how you'll react I'll see it in your eyes

If I told you that I loved you

Would you think it's just a game

If I told you that I loved you

Would you love me just the same

If I told you that I loved you

Would you stand right by my side

If I told you that I loved you

Would you take me for a ride ... (now lookout!)

Face to face and back to back we stand to fight the war
I'm tryin' to deny it but my heart can't take no more
There's a time and there's a place where all good things must end
So give me all your loving baby - I don't need no friend

If I told you that I loved you

I'd expect a big reward

If I told you that I loved you

Would my feelings be ignored

If I told you that I loved you

Would you hold me through the night

If I told you that I loved you

Baby, my loving does you right

If I told you that I loved you
Would you change your evil ways
And if I say I'll do it all for you
Would it bring you brighter days
'Cause girl I don't know what's driving you
But it seems so clear to me
That if I told you that I loved you
Then your love would come to meeeeeee yeaaaaa!
