

# ONE NITE ROMANCE

I see you every night -- you're always hangin' around  
Don't know where you're going baby -- don't know where you're bound  
Party hearty every night - you're gettin' mean with the boys  
The way you let it all hang out I guess you think that you made that your choice

***Love Just Don't Pay*** --- in a one night romance  
***In a one night romance***

The pressure's on the lights are out -- it's your turn to decide  
But when it comes right down to it baby -- you don't run and hide  
The time is up, the lights are out -- it all comes down to you  
I'm gonna' ask you one more time girl -- say whatcha' gonna' do!

(spoken)

Aww how could you do this to me baby,  
you're never here, you're always gone  
I can't believe you let it come down to this  
It's time to be moving on on on yeah!
