

PRICE YOU PAY

Sometimes it seems as if nobody really cares how I'm feeling - But that's alright
I know I could have had a better time without you in my dealings - So tonight

Just let go - and pretend you never tried
Just let go - I'll pretend you never lied
Just let go - of the pain it takes to learn
Just let go - time is up, say it's your turn

You can't have love - until you give it away
A small and meager price you pay
You break my heart - I'll break yours too
and then we'll see who pulls through

You had me runnin' circles, chasing you around for a reason
All night and day - I wanna know how I got left out in the cold
And baby I'm freezing - There ain't no wayyyyyy..

Just let go - and pretend you never tried
Just let go - I'll pretend you never lied
Just let go - of the pain it takes to learn
Just let go - time is up, say it's your turn

You can't have love - until you give it away
A small and meager price you pay
You break my heart - I'll break yours too
and then we'll see who pulls through

{SOLO}

As if you didn't think I had some better things to do -- With my time
I've got the rest of my life staring down the end of a highway - And it's time to fly

Just let go - and pretend you never tried
Just let go - I'll pretend you never lied
Just let go - of the pain it takes to learn
Just let go - time is up, say it's your turn

You can't have love - until you give it away
A small and meager price you pay
You break my heart - I'll break yours too
and then we'll see who pulls through
Can't have love!!

[Solo]
