

ROAD MACHINE

She's got the feel - you know its real
Thunderous rush of power - at control of your right heel
She breathes to life - cuts like a knife
You know you'd love to take her out with you tonight

She's my Road Machine -- ***She's my*** steely dreams
She's my Road Machine -- She's lean, she's mean and she screams
Yeaaaaaaaaaah!

I need to know - energy flow
Four barrels, dual exhaust - help you on your way to go
Stuck to the floor - she begs for more
Five hundred ponies lighting up the tires with a roar

She's my Road Machine -- ***She's my*** steely dreams
She's my Road Machine -- She's lean, she's mean and she screams
Yeaaaaaaaaaah!
