

# SHOT IN THE DARK

I say you look - and you take - everything that you need  
I wanna tell you - babe I need show you - the way I feel  
And my head is holding me back girl - it's telling me to wait  
But my heart and mind are made up and say don't hesitate

**To try to make love real** - no matter what I do  
It's your love I've got to steal honey you know its true  
I wanna know just what it's like to be held in your arms  
But baby it's so frustrating - what can I do but say

***Our love is like a*** -- Shot in the dark  
***Our love is like a*** -- Shot in the dark  
You know it and I feel it - every time we're apart  
***Our love is like a*** -- Shot in the dark

I'm making you an offer woman - one you can't refuse  
I wanna love you the rest of my life now - but you still choose  
To take me for granted - well what can I say  
Except I hope that you see your problems - one of these days

**To try to make love real** - no matter what I do  
It's your love I've got to steal honey you know its true  
I wanna know just what it's like to be held in your arms  
But baby it's so frustrating - what can I do but say

***Our love is like a*** -- Shot in the dark  
***Our love is like a*** -- Shot in the dark  
You know it and I feel it - every time we're apart  
***Our love is like a*** -- Shot in the dark

***Our love is like a*** -- Shot in the dark  
***Our love is like a*** -- Shot in the dark  
You know it and I feel it - every time we're apart  
***Our love is like a*** -- **Shot ...**
