

Walkin' the Line

I'm workin overtime at time and a half
But the money that I'm making makes me wanna laugh
I get the same old line of BS each day
It's the same old aggravation - it gets in my way (but you know)

I'm going out - gonna party tonight
I'm homing in baby setting my sights
I've got a plan and I'm working it out tonight
In sight - it's right baby - tonight

Walkin' the line - don't you know that its wasting my time
Walkin' the line - baby baby please quit changing your mind

I get up on Monday morning again
Got no money, got no woman, baby I got no friends
We think we're living, think we've got it made
I got news for you brother – it just ain't that way (but you know)

I'm going out - gonna party tonight
I'm homing in baby setting my sights
I've got a plan and I'm working it out tonight
In sight - it's right baby - tonight

Bridge section (loose rap)

Walkin' the line - (whispered) **Walkin' the line** (whispered)
It's just a waste of my time yeah

[Solo]

Walkin' the line - don't you know that its wasting my time
Walkin' the line - baby baby please quit changing your mind

Walkin' the line - I get the same old excuses time and time again
Walkin' the line - we could be living higher, but your'e wasting my time.
